Capabilities Statement

Contracting Information: As a Native Hawaiian Organization (NHO) owned 8(a), IRS offers significant contracting efficiencies, defined by law and regulation, to help Department of Defense (DoD) agencies resolve urgent and dynamic requirements. Through our ability to receive sole-source contracts above the 8(a) ceiling, IRS offers significant time and cost effectiveness to the government's contracting process. Coupled with the ingenuity and agility associated with small firms, NHO 8(a)s, such as IRS, have proven to be attractive vendors and business partners.

Applicable Federal Acquisition Regulations

No Sole Source Dollar Threshold - 13CFR124.506(b)(2). The DoD may award a direct award 8(a) contract to a concern owned and controlled by an NHO where the anticipated value of the procurement exceeds the applicable competitive thresholds if the SBA has not already accepted this requirement into the 8(a) BD program as a competitive procurement. NHOs provide a unique competitive advantage in being able to receive DoD direct awards of any size. This decreases time and cost in the procurement process and allows clients to work one on one with firms to ensure the needs of the government are met.

A Non-Protestable Sole Source Award -13CFR124.517(a). The eligibility of a Participant (NHO owned 8(a)) for a sole source or competitive 8(a) requirement may not be challenged by another Participant or any other party, either to SBA or any administrative forum as part of a bid or other contract protest.

The 5% Subcontracting Bonus- DFARS 252.226-7001. A DoD contractor who subcontracts with a firm that is 51% Native Hawaiian owned and recognized Native Hawaiian as defined by 25 USC 422(9) is entitled to receive an incentive payment equal to 5% of the amount of the subcontract award.

Economically Disadvantaged - 13CFR124.110(c). An NHO that meets the requirements set forth in paragraph (c)(1) & (c)(2) of this section is deemed economically disadvantaged.
